Scope Plane

What they wanted:

- A website.
- Fans and potential fans could have access to all the latest music produced by the Dj. Also check out any merchandise in the store. And Clients could book the Dj
- To add links to social media platforms such as FaceBook, Twitter ect…

What they actually need:

- A website that looks both good on desktop and mobile.
- A Home page with easy access to make a booking.
- A Store page to show latest deals and go the preferred genre of items.
- A media Page that allows you the listen to latest music.
- A dates page to display all the dates of any current tour or coming up tour.
